

GROUND FORCE® DRIFTER™
ON/OFF SWITCH
INSTALLATION INSTRUCTIONS

W13112445101

Tools Required: (Not included)

- A. 5 mm Allen wrench
- B. 10 mm wrench
- C. Flat head screwdriver

⚠WARNING

⚠CAUTION: To avoid potential shock or other injury, turn power switch **OFF** and disconnect charger before removing or installing the on/off switch. Failure to follow these steps in the correct order may cause irreparable damage.

Step 1

Loosen the four (4) 5 mm seat bolts and remove seat.

Figure 1

Step 2

Loosen the four (4) 5 mm hex bolts on the battery cover (2 on each side) and remove cover.

Step 3

Locate the white plastic connector on the battery and disconnect it from the control module.

Figure 3

Step 4

Disconnect the two (2) red wires going from the control module to the on/off switch and the single black wire from the on/off switch to the charger port.

Figure 4

Step 5

Using a flat head screwdriver; carefully remove the silicone from the back of the on/off switch and remove from battery cover.

Figure 5

Note

Place replacement on/off switch in the battery cover. Re-connect the wires as shown above. **NOTE:** The two (2) red wires from the on/off switch go on the two (2) silver prongs (in any order). The black wire from the charger port goes on the gold colored prong.

(1) Gold prong -
black wire
charger port

(2) Silver prongs -
red on/off switch
