

**Tools Required:** (Not included)

- A. Phillips head screwdriver
- B. 2.5mm Allen wrench
- C. 4mm Allen wrench
- D. 5mm Allen wrench
- E. Flat head screwdriver

**⚠ CAUTION:** To avoid potential shock or other injury, turn power switch **OFF** and disconnect charger before attempting these procedures. Failure to follow these steps in the correct order may cause irreparable damage.

**Step 1**

Using a Phillips head screwdriver, remove the four Phillips screws at the back of the battery cover at the rear of the product.

Figure 1

**Step 2**

Using a 4mm Allen wrench, remove two 4mm hex bolts on the right side of the battery cover.

Figure 2

**Step 3**

Remove two 4mm hex bolts on the left side of the battery cover and one Phillips screw located on the middle left side of the battery cover.

Figure 3

**Step 4**

Carefully cut the zip tie holding the wires together and remove the cable wrap. **Note:** Save the cable wrap for reassembly. Starting from the steering wheel, follow the throttle wire and disconnect it from control module by depressing the tab.

Figure 4

## Step 5

Using a 2.5mm Allen wrench loosen the set screw located under the light indicator on the throttle and remove throttle from steering wheel.

Figure 5

## Step 6

Using a 5mm Allen wrench, remove the two hex bolts that hold the bottom of the seat to the frame. Using a Phillips head screwdriver, remove the two screws located at the back of the seat and remove seat.

Figure 6

## Step 7

Using a flat head screwdriver, remove the clips that hold the cables on the underside of your Dune Buggy.

Figure 7

## Step 8

Gently pull the throttle cable up through the opening on the deck. Attach the replacement throttle to the steering wheel and re-thread the wire through the opening in the deck. Reconnect the white plastic connector for the new throttle to that of the control module. Secure cable using the same clips removed in step 7.

Figure 8

## Step 9

Reverse steps:

1. Replace the battery cover and seat.
2. Re-fasten the screws that hold the battery cover and seat in place.

**ATTENTION: Charge unit at least 18 hours before riding.**
