

Required Tools: (Not included)

- A. Phillips screwdriver
- B. Flat screwdriver
- C. Long needle pliers

! WARNING

! CAUTION: To avoid potential shock or other injury, turn power switch OFF and disconnect charger before conducting any assembly or maintenance procedures. Failure to follow these steps in the correct order may cause irreparable damage.

Step 1

Using a Phillips screwdriver, remove the five (5) screws from the side with the power switch.

**Step 2**

Pull the cover off. Be careful not to damage the wires for the charger port and power switch. Set cover aside.

Step 3

Locate and disconnect the charger port from the controller.

Step 4

Disconnect the black wire from the power switch.

Step 5

Using a flat screwdriver, remove the glue at the back of the charger port.

Step 6

Using long needle pliers, remove the lock nut at the back of the charger port and push it out of the battery cover.

Step 7

Reverse the procedures

ATTENTION: Charge battery 12 hours before using.
