

**Required Tools: (Not included)**

- A. 3 mm Allen wrench
- B. Small flat screwdriver

**⚠ WARNING**

**⚠ CAUTION:** To avoid potential shock or other injury, turn power switch OFF and disconnect charger before conducting any assembly or maintenance procedures. Failure to follow these steps in the correct order may cause irreparable damage.

**Step 1**

Using a 3 mm Allen wrench, loosen the set screws under the throttle and brake and move them away from the grips being careful not to damage the wires.

**Step 2**

Using a small flat screwdriver, insert the blade between the grip and the handlebar. Apply a few drops of WD40<sup>®</sup> or soapy water, remove the screwdriver and pull firmly to remove grip from the handlebar.

### Step 3

Repeat the steps on the other side, clean handlebars and grips before installing new grips.

### Step 4

Reverse the steps.

**ATTENTION: Charge battery 8 hours before using.**
