

Crazy Cart 2014 Foot Pedal Throttle  
Replacement Procedures

(1) Using a Phillips screw driver remove seven screws from the battery cover from the Throttle side.

(2) Locate and disconnect the connector from the Throttle to the Controller.

(3) Flip the unit on the side and unthread the Throttle cable from the unit.

(4) Using a Phillips screw driver remove three screws that hold the throttle onto the frame of the unit.

**Reverse the procedures**

- \* Place the new Foot Pedal Throttle in place
- \* Secure it with the screws
- \* Secure Throttle cable onto frame and Re-connect throttle to controller.
- \* Re-attach Battery cover with screws

**Attention: Charge battery 12 hours before using**
